

GEARSP1 SLOWPITCH SOFTBALL

GEAR VIRUS

IT'S ABOUT TO REACH PANDEMIC PROPORTIONS!

HOW COULD COMBAT POSSIBLY IMPROVE ITS IMMENSELY POPULAR VIRUS BAT? AFTER ALL, THE VIRUS WAS USED BY TEAM COMBAT TO LEAD THE 2006 MAJORS IN BOTH HOMERUN FREQUENCY AND ON BASE PERCENTAGE. SIMPLE - BY INVENTING GEAR TECHNOLOGY (GT), RESULTING IN COMBAT'S BEST SLOWPITCH BAT TO DATE. THE GEAR VIRUS COMBINES ALL COMBAT'S PRIOR PROVEN TECHNOLOGIES INCLUDING THE 11" BARREL, WITH COMBAT'S NEW PROPRIETARY GEAR TECHNOLOGY (GT) IN THE TAPER. THE RESULT IS MAXIMUM ALLOWABLE PERFORMANCE, WITH THE SOFTEST FEEL, AND THE LARGEST SWEETSPOT IN THE INDUSTRY. THIS REVOLUTIONARY TECHNOLOGY HAS GROOVES IN THE TAPER WHICH MAKES THE BARREL TAPER END SOFTER, THEREBY INCREASING THE SWEETSPOT BEYOND ANY OTHER BAT ON THE MARKET. WE HAVE LITERALLY RESHAPED THIS BAT AND YOUR GAME. WE HAVE CHALLENGED ALL CONVENTIONAL BATS ON THE MARKET. TODAY THE COMPETITION IS GOING HOME SICK.

ADDITIONAL FEATURES INCLUDE NANOCOMP TECHNOLOGY INSIDE (NTI) FOR ADDED DURABILITY, VARIABLE STIFFNESS TECHNOLOGY (VST) FOR THAT ULTRA SOFT FEEL, AND PRECISION MOLDING TECHNOLOGY (PMT) FOR MAXIMUM ALLOWABLE PERFORMANCE. THIS IS AN ALL COMPOSITE BAT MEETING THE 1.20 BPF STANDARD AND AVAILABLE IN BOTH BALANCED AND FULLY LOADED VERSIONS.
